

Name: _____ Class: _____

How does people, software, and hardware work together to deliver customer orders at Amazon?

Directions: Make a copy of this document in order to edit. Use the word bank to record new vocabulary you learn during the tour. For open-ended questions, you can type your answers into Kahoot! or record them on this worksheet.

What do you already know about Amazon, robots, or computer science?

database hardware algorithm engineer sensor system software

Stop 0: Welcome	
	Code or programme, the instructions that tell the computer or robot how to work and what to do.
	The physical parts of a computer or device (stuff you can touch).
	A group of parts (hardware and software) that work together to accomplish a task.

Stop 1: Pick	
	A set of step-by-step instructions or rules that a computer or robot follows to perform a task.
	Hardware that takes in information from its environment and responds.

Stop 2: Pack	
	A place where data (information) is organised and stored.

Stop 4: Careers	
	A person who designs and builds complicated products, machines, systems, or structures.

FC Tour Note Catcher - Primary

I am most interested in a career in hardware / software / solutions (systems) engineering because...

My favourite part of the tour was _____ because...

Thank you for joining us on an **Amazon Future Engineer Career Tour!**
